

QT 100

Exchangeable Thru Hull

The QT100 LED underwater light features exchangeable inserts. This allows servicing and upgrades without the hassle of hauling your boat. With 10,000 lumens of light power and it's 90° degree beam angle the QT-100 LED is recommended for boats over 65' feet, installing each fixture 3 - 9 feet apart for the best illumination.

The QT100 is designed with an industry standard 72mm - 2 7/8" hole cutout facilitating an easy upgrade exchange from competitor fixtures. This housing design has been in production for 25 years with zero failures. Built with anodized aluminium and armor coated AB2 bronze. Supplied with an IP68 junction box for seamless installation.
